| SECTION 2. Hazards ider | ntification | |

2.1. Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions set forth in (EC) Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). The product thus requires a safety datasheet that complies with the provisions of (EU) Regulation 2020/878. Any additional information concerning the risks for health and/or the environment are given in sections 11 and 12 of this sheet.

For classsification and labeling: Oecd 438: 2013 test

Hazard classification and indication:

The full wording of hazard (H) phrases is given in section 16 of the sheet.

SECTION 4. First aid measures

4.1. Description of first aid measures

EYES: Remove contact lenses, if present. Wash immediately with plenty of water for at least 30-60 minutes, opening the eyelids fully. Get medical advice/attention.

SKIN: Remove contaminated clothing. Rinse skin with a shower immediately. Get medical advice/attention.

INGESTION: Have the subject drink as much water as possible. Get medical advice/attention. Do not induce vomiting unless explicitly authorised by a doctor.

INHALATION: Get medical advice/attention immediately. Remove victim to fresh air, away from the accident scene. If the subject stops breathing, administer artificial respiration. Take suitable precautions for rescue workers.

4.2. Most important symptoms and effects, both acute and delayed

Specific information on symptoms and effects caused by the product are unknown.

4.3. Indication of any immediate medical attention and special treatment needed

Information not available

SECTION 5. Firefighting measures

5.1. Extinguishing media

| UNSUITABLE EXTINGUISHING EQU | | spray. |
| None in particular. | | |
| 5.2. Special hazards arising from the | e substance or mixture | |
| | | |
| HAZARDS CAUSED BY EXPOSURE | IN THE EVENT OF FIRE The product is combustible and, when the powder is released int | to the air in sufficient concentrations and in the |
| | reate explosive mixtures with air. Fires may start or get worse by | |
| when it reaches high temperatures or t | through contact with sources of ignition. | - |
| SODIUM PERCARBONATE | | |
| | mmable substances is dangerous; decomposition with development | t of O2. |
| E 2. Advice for fireficktore | | |
| 5.3. Advice for firefighters | | |
| GENERAL INFORMATION | | |
| | rs to prevent product decomposition and the development of subs extinguishing water to prevent it from draining into the sewer sy | |
| extinction and the remains of the fire a | ccording to applicable regulations. | |
| SPECIAL PROTECTIVE EQUIPMENT | Γ FOR FIRE-FIGHTERS t (BS EN 469), gloves (BS EN 659) and boots (HO specification A | 29 and A30) in combination with self-contained |
| | ssed air breathing apparatus (BS EN 137). | |
| | | |
| SODIUM PERCARBONATE Sodium percarbonate: the product is a | n oxidiser: easily releasing O2 it fuels fires; protect from heat and h | umidity. |
| | | |
| | | |
| SECTION 6. Accidental re | elease measures | |
| 6.1. Personal precautions, protectiv | e equipment and emergency procedures | |
| If there are no contraindications, spray | powder with water to prevent the formation of dust. | |
| Wear suitable protective equipment (| (including personal protective equipment referred to under Section nal clothing. These indications apply for both processing staff and the | |
| | | |
| 6.2. Environmental precautions | | |
| The product must not penetrate into th | e sewer system or come into contact with surface water or ground v | water. |

6.3. Methods and material for containment and cleaning up

Collect the leaked product and place it in containers for recovery or disposal. If there are no contraindications, use jets of water to eliminate product residues.

Make sure the leakage site is well aired. Evaluate the compatibility of the container to be used, by checking section 10. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

SODIUM PERCARBONATE Sodium percarbonate: avoid hermetically closing the container.

6.4. Reference to other sections

Any information on personal protection and disposal is given in sections 8 and 13.

15.2. Chemical safety assessment

A chemical safety assessment has been performed for the product

SECTION 16. Other information

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

| Ox. Liq. 3 | Oxidising liquid, category 3 |
|-------------------|--|
| Met. Corr. 1 | Substance or mixture corrosive to metals, category 1 |
| Acute Tox. 4 | Acute toxicity, category 4 |
| Skin Corr. 1B | Skin corrosion, category 1B |
| Eye Dam. 1 | Serious eye damage, category 1 |
| Eye Irrit. 2 | Eye irritation, category 2 |
| Skin Irrit. 2 | Skin irritation, category 2 |
| STOT SE 3 | Specific target organ toxicity - single exposure, category 3 |
| Aquatic Chronic 3 | Hazardous to the aquatic environment, chronic toxicity, category |
| H272 | May intensify fire; oxidiser. |
| H290 | May be corrosive to metals. |
| H302 | Harmful if swallowed. |
| H314 | Causes severe skin burns and eye damage. |
| H318 | Causes serious eye damage. |
| H319 | Causes serious eye irritation. |
| H315 | Causes skin irritation. |
| H335 | May cause respiratory irritation. |
| H412 | Harmful to aquatic life with long lasting effects. |
| | |

APPENDIX: EXPOSURE SCENARIOS - No.1

PHASE: TRANSFER OF THE PROFESSIONAL PRODUCT INTO CONTAINER (BUCKET/MACHINE)

(ref AISE GEIS.8a .1.a.v1)- Open transfer of a concentrated product (with or without diluting); the worker is directly exposed to the product.

OPERATING CONDITIONS

| Maximum duration | 50 minutes/day |
|--------------------|--|
| Process conditions | Process performed at room temperature |
| | Dilute if required with tap water at a maximum |
| | temperature of 45 °C. |
| | Local exhaust ventilation (LEV) is not required; generally |
| | efficient ventilation in the work place is sufficient |

RISK MANAGEMENT MEASURES

| Conditions and measures concerning personal protective equipment (PPE), health and hygiene evaluation | Use gloves and protective goggles. See sect. 8 for specifications. Staff must be trained appropriately in use and maintenance |
|--|---|
|--|---|

GENERAL ADVICE

| Do not eat, drink, smoke or use live flames | |
|--|---|
| Wash hands after use. Avoid contact with damaged skin Do not mix with other products | |
| Leakage instructions | Dilute with water and collect. |
| Additional advice | Follow the instructions on the label, the technical sheet and the SDS in sect. 7. |

ENVIRONMENTAL MEASURES: Prevent the non-diluted product from reaching surface water.

PRODUCT COMPOSITION PROPERTIES

The classification of the concentrated product can be found on the label and in sect. 2 of the SDS

The product classification is based on the ingredient classification. The list of ingredients contributing to the product classification can be found in sect. 3 of the SDS.

The exposure evaluation is based on the key limit values of the ingredients indicated in sect. 8 of the SDS

The product may contain sensitizing components which may cause an allergic reaction in some people. Sect. 15 of the SDS lists these sensitizing components, where applicable to the product.

USE DESCRIPTORSSU 22: Professional uses

PC 35: Washing and cleaning products (including solvent-based products)

PROC 8a: Transfer of substance or preparation (charging/discharging) from/to vessels/large containers at non-dedicated facilities

ERC 8a: Wide dispersive indoor use of processing aids in open systems

APPENDIX: EXPOSURE SCENARIOS - No. 4 PHASE: USING A PROFESSIONAL PRODUCT IN A SEMI CLOSED SYSTEM (ref AISE GEIS 2.1.a.V1) Using a product in a machine where the worker could be exposed to the product/vapors (e.g.: Tunnel washsing)

OPERATING CONDITIONS

| Maximum duration | 480 minutes/day |
|--------------------|--|
| Process conditions | Process performed at room temperature |
| | Local exhaust ventilation (LEV) is not required; generally |
| | efficient ventilation in the work place is sufficient |

RISK MANAGEMENT MEASURES

| Conditions and measures concerning personal protective | Personal protective equipment is not required. |
|--|--|
| equipment (PPE), health and hygiene evaluation | |

GENERAL ADVICE

| Do not eat, drink, smoke or use live flames | |
|--|---|
| Wash hands after use. Avoid contact with damaged skin Do not mix with other products | |
| Leakage instructions | Dilute with water and collect |
| Additional advice | Follow the instructions on the label, the technical sheet and the SDS in sect. 7. |

ENVIRONMENTAL MEASURES: Prevent the non-diluted product from reaching surface water

PRODUCT COMPOSITION PROPERTIES

The classification of the concentrated product can be found on the label and in sect. 2 of the SDS

The product classification is based on the ingredient classification. The list of ingredients contributing to the product classification can be found in sect. 3 of the SDS.

The exposure evaluation is based on the key limit values of the ingredients indicated in sect. 8 of the SDS

The product may contain sensitizing components which may cause an allergic reaction in some people. Sect. 15 of the SDS lists these sensitizing components, where applicable to the product.

USE DESCRIPTORS

SU 22: Professional uses

PC 35: Washing and cleaning products (including solvent-based products)

PROC 2: Use in closed, continuous process with occasional controlled exposure

ERC 8a: Wide dispersive indoor use of processing aids in open systems

APPENDIX: EXPOSURE SCENARIOS - NO. 11

PHASE: USING A PROFESSIONAL PRODUCT FOR IMMERSING/POURING (ref AISE GEIS.13 .1.A.v1) The product is poured on an item, or the item is immersed in the product (e.g. toilet cleaning) OPERATING CONDITIONS

| Maximum duration | 50 minutes/day |
|--------------------|--|
| Process conditions | Process performed at room temperature |
| | Dilute if required with tap water at a maximum |
| | temperature of 45 °C. |
| | Local exhaust ventilation (LEV) is not required; |
| | generally efficient ventilation in the work place is |
| | sufficient |

RISK MANAGEMENT MEASURES

| Conditions and measures concerning personal protective equipment (PPE), health and hygiene evaluation | Use gloves and protective goggles. See sect. 8 for specifications |
|---|---|
